PLEASE READ THE FOLLOWING CAREFULLY:

All ingredients used in this spray tan are intended for cosmetic use and are generally regarded as safe. I assume responsibility for any kind of allergic, medial or other reaction I may have to this formula. All our formulas are organic and spa grade products.

- Everyone's skin tans differently. Some people will tan darker and some will tan lighter. We make no warranties as to how dark each individual will tan. Each person's skin also exfoliates at a different rate and therefore the length of time a spray tan lasts will vary. The average tan lasts approximately one week or longer with good pre and post-tan skin care.
- Females may undress to their own comfort level. Men must wear undergarments. No exceptions.
- I have read all the instructions about my Spray Tan Session and understand the before and after care of the sunless tanning process.

I have read the above statements and completed this information sheet to the best of my knowledge.
